# PAID AT LAST. The Mexican Government and the Baldwin Claims.

lated Press Leased-wire Service. WASHINGTON, Aug. 21.-A celebrated case, which has occupied a good part of the attention of the State Department for seven years, and has also figured in Congress for several years, has just come to a successful termination, and the Mexican government has placed with the State Department, to the credit of Mrs. Leon McLeod Baldwin, the sum of \$20,000, as indemnity for the assassination of her husband.

Baldwin was superintendent, or mana-ger, of the Valencia mines. In 1887 while making a tour of a group of mines belonging to a party of American capital-ists, he was fired on by two desperadoes and was badly wounded and sought refuge in a tunnel. The desperadoes called upon the unarmed miners to sur-render Baldwin, or die. To save the lives of the helpless, Baldwin surrendered himself, on promise that he would be al-lowed to pay a ransom and go free. The bandits put him on a mule, hurried him down the road, and in a few minutes shot The Mexican government renounced the esponsibility for the assassination, and has taken seven years to determine other

The Vesuvius to Be Transformed into

a Torpedo Boat.

Associated Press Leased-wire Service.

WASHINGTON, Aug. 21.—The Construction Bureau of the navy has prepared plans for the transformation of the dynaplans for the transformation of the dynamita cruiser Vesuvius into a torpedo-boat, and the result of the change will be to make the Vesuvius a pretty craft. By the removal of the cumbersome dynamite guns, the constructors will be able to use the 100 tons of available displacement for the accommodation of a superstructure running the entire length of the vessel forward. This will afford comfortable quarters for the crew, and will make the vessel a much better seaboat in rough weether. Five torpedo-tubes will be put in, two on the bow, one astern and two in, two on the bow, one astern and two amidships.

THE COURT OF INQUIRY.

LONDON, Aug. 21.—A dispatch to the Times from Shanghai today asys a court of inquiry has established the fact that the commander of the Japanese warship Naniwa ordered the destruction of drowning men from the Chinese transport Kow-Shung, sunk by the Japanese. Vice-Admiral -Freemantle, in command of the British China station, is coffeening detailed evidence on the subject.

THE FINDINGS FAVORABLE. WASHINGTON, Aug. 21.—The Japanese legation received intelligence stating that it has been reported in Tokio on reliable authority that the finding of the British Naval Court of Inquiry, which was held in Shanghai to investigate the fact of the sinking of the British steamer Kowshung, when acting as a transport for Shung, when acting as a transport for Chinese troops for Korea by the Japanese cruiser Naniwa-Ken, is tavorable to the Japanese. It is also reported that the British admiral has officially stated to his government that he considers the sinking of the Kow-Shung under the circumstances as the equivalent of the sinking of a Chinese vessel and that he has consequently addited the British expressions. Leaders of the Country.

Associated Press Leased-wire Service.

WASHINGTON, Aug. 21.—Representative Hartman of Montana presented in the House today resolutions for the free coinage of silver, which are regarded by the free-silver advocates as one of the most significant expressions in favor of their doctrine, which has been elicited by the agitation of the past year. The resolutions, which have been considered and adopted during the present session by the most powerful labor organizations of the country, are strongly worded and are

The signers are: J. D. Sovereign, grand master workman, and John W. Hayes, secretary and treasurer of the Knights of Labor; Samuel Gompers, president of the American Federation of Labor; Marion Butler, president of the National Farmers P. F. Maguire, secretary, of the Broth-erhood of Carpenters and Joiners; P. M. Arthur, chief of the Brotherhood of Loconotive Engineers; C. A. Rollinson, presi ient of the Farmers' Mutual Benefit Asso ciation; Frank Sargent, grand master workman, and F. W. Arnold; secretary and treasurer, of the Brotherhood of Locomotive Firemen, and John McBride, president of the United Mine-workers of

Accompanying the resolution is an ad dress to the members of organized labor and all other producers and tollers throughout the United States, which led to their adoption. The address declares that "in view of the seneral distress at a time when granaries are full, and, in the matural order of things, producers and toilers should be enjoying the fruits of their

ers should be enjoying the fruits of their labors, it seems that the time has come for united action on the part of those who create the wealth of the country."

One of the causes which has brought about this condition, the address says, is the departure from the wise bimetallic financial principle of Washington, Jefferson and Hamilton, and the substitution of the monometallic policy dictated by the European money-holders and their American allies. A review of the financial legislation is given to show what part was can allies. A review of the financial legislation is given to show what part was enacted in the interest of the producing as well as of the non-producing classes. The proposition is set forth that before the demonstration of silver 3500 bushels of wheat or 35,000 pounds of cotton equalled the annual pay of a Senator of Congressman, while today 10,000 bushels of wheat or 100,000 pounds of cotton barely suffice; that formerly 35,000 bushels of wheat or 350,000 pounds of cotton would have paid the salary of the President, while today he receives the equivalent of 100,000 bushels of wheat or 100,000 pounds of cotton, and the same proportion applies to all other fixed salaries and incomes.

Demoralization of the food-producing

other fixed salaries and incomes.

Demoralization of the food-producing section is said to have caused manufacturers to lose the markets for their goods, so that hundreds of thousands of workmen have been thrown out of employment, and the demoratization of helf of the world's the demonetization of half of the world's volume of money makes it comparatively easy for capitalists to corner and manipulate the other half. In the eview of financial legislation, it is charged that all acts since the civil war have been in the interests of the bondholders and against the producers, and that the Sherman law is said to have been repealed at the demand of European financiers, although a grand fight was made by the people's representatives. The resolutions are as follows: the demonetization of half of the world's

"We demand of the present Congress the immediate return to the money of the Constitution as established by our fathers, by restoring the free and unlimited coinage of silver at a ratio of 16 to 1, the coins of both metals to be equally full legal tender for all debts, public and private, as before the fraudulent demonetization of silver in 1873. ver in 1873.

'We also condemn the issuance of national debt in the time of peace, and the use of interest-bearing bonds at any time."

A Day of Little Formal Procedure Ex-Senator Del Valle Chosen Chairman — Crowded Accommodations.

By Telegraph to The Times.
SAN FRANCISCO, Aug. 21.—(Special Dispatch.) The terrified and discouraged party of many promises and of but few schievements except those of ill to the country, got together in part at the Baldwin Theater today, but it was twenty-five minutes after the meridian hour before Max Popper floated from the wings and called the convention to order.

The great Democratic show did no draw a bilg house. The place of the gods near the skylight was well filled, but there was only a sprinkle of spectators n the balcony chairs, and even the parquette and the dress circle, where the delegates were seated, contained plenty of bow room, although from the kick that came later you would not believe it A few ladies gowned in the faultless fash on common to the fair creatures of the negropolis graced the boxes and beflowered he space behind the brass rail of the balconv. The theater contained no decoration except the draping of a couple of big flag cross the stage behind the chairman's

coign of vantage. Statesman Pepper did not deign to favor he audience with any flights of oratory but proceeded at once in a plain way t get to business, and his call for nominations for temporary chairman brought to the stage George Patton, who nominated Senator del Valle to that office in a speech that was full of tobasco sauce, agua fortile and plain vitriol for that universally lambasted institution, the Southern Pacific Railroad. In fact, Mr. Patton only mentioned Mr. Del Valle incidentally, the pleced resistance of his speech being a roasi of Collis P. Huntington and his wicked partners. The supple young orator of San Gabriel struck the keynote of this convention, that is, abuse of the railroad with the hope that the shortcomings of the party of Grover with its sugar and whisky scandals may become so befogged that the nominees can sneak in under the

S. P. must come out from behind the breastworks and fight in the open," the convention broke into a cheer that lasted for nearly a minute. His remark, copied from the Examiner that at this time "conservatism is but another name for cow ardice," met with equal approval, giving sbundant evidence that the unwashed are agreed that the railroad must go, all same Chinese. Mr. Patton's man was so carethe chairmanship that he was nominated by acclamation. In nominating secretaries, Sam Braun-hart, who is always at the fore in con-ventions of this ilk, raised the first laugh of the day by forgetting to give the name of this candidate, whom he announced as a rock-ribbed Democrat from south of Marke

Jackson of San Francisco volced objection heard for the last day or two against the place of meeting. He wanted a committee of five appointed to hire a hall, and although an ition would not come as a surprise effort was made to have his motion go wer, it was adopted with a roar. A recess was had until 3 p.m., in order to give the chairman time to make up his

Committee on Credentials, and at hour the convention reassembled for the purpose of hearing the list indistinctly read by a secretary whose manuscript must have been something awful, from the way he blundered over it. The work of making up Committees on Platform and Orde of Business is evidently herculean, for Del Valle asked twenty-four hours' time in which to report them, which was granted, with some murmurs of reluctance and discontent.

Immediately upon adjournment the State savers surged out of the house and up to Lucky Baldwin's whistle-wettery en masse. Here, amid the liquid delights that the average Democrat likes to cool his parched tongue with, the buttonholing and logrolling has gone on with un-

abated vigor.

Jim Budd's boom is scarcely so strong Budd's boom is scarcely so strong Murphy' as it was last night. Barney Murphy friends have rallid and are crowding the mourner with the unblown name like smoke. If Barney's name was Smith or Jones or Chumley, or almost anything bu Murphy, he could walk off with this nom-ination the easiest kind, but the specter of the A.P.A. rises up and scares every-body into fits at the bare mention of body into his at the bare mention of Murphy on the ticket, especially at the head of it. And the ghost will not down. Almost every Democrat you meet sneers at the idea of being "afeerd," but that great big 30,000 A.P.A. vote that we hear of makes him shake, just the same, and if the genial Democrat from Santa Clara in this big delegation is knocked out, it will be an A.P.A. victor in the convention. The only other is knocked out, it will be an A.P.A. victor in the same is knocked out, it will be an A.P.A. vic-

Is knocked out, it will be an A.P.A. Vic-tory, and don't you forget it.

The South is, so far as the various dele-gations are concerned, apparently with-out ambition for place on the State ticket.

Of course, Victor Montgomery is here and thinks he is a candidate for a jus-ticeship nomination, but he is flocking all and thinks he is a candidate for a jus-ticeship nomination, but he is flocking all by himself, going it alone, playing soli-taire, and all that sort of thing, if I am any judge of appearances. The result of his ambition is not at all likely to be the same ambition is not at all likely to be the same in substance as his front name. I expected, from what I heard down home, to see the populace parading the streets here with brass bands and banners for Munday for Lieutenant-Governor, but the idol is shattered, not to say ripped up the back. The Munday boom, apparently, has not reached much further than Tropico, and even there it is doubtless but little

more than the sighing of a zephy: in the

Statesman without let or hiadrance. Statesman Lindley of Whittier is here, and there are people so unkind as to say that he is acting as a steering committee in the Congressional fight of the Democracy in the Sixth District. But his rudder is unshipped, I think. At 7:30 o'clock tonight the Congress convention met at Pythian Castle, up Market street some place, and a lively scrap was predicted between the friends of Paters and Market. place, and a lively acrap was predicted between the friends of Patton and Mess-more, but the thing fizzled out into an adjournment until the General Committee on Credentials reports tomorrow. I am still of the opinion that Patton will win, still of the opinion that Patton will win, but his opponents are active and vinegary, and the contest, as a consequence, will be a lively one, and a nomination will likely be made tomorrow night. As a general proposition, the entire shootingmatch is in a state of chaos, and predictions are idle, perhaps, but the atmosphere tonight is certainly strongly impregnated with Rudd. Until that fight is lost and won, even the son of a prophet could not guess about the make-up of the ticket.

The Examiner today has Henry Wilson of Los Angeles nominated for Secretary of

of Los Angeles nominated for Secretary of State, leaving poor Martin Marsh cold. There is just about as much State, leaving poor Martin M cold. There is just about as in in this as most of the other progr cating that is going on. Billy Foots and his crutches occupy a room at the Baldwin. Billy is nursing both a game leg and a boom for the United States Senate; at least, such things are stated, but the genial F.F.V. says not. He says all he wants is to saw wood. The convention is full of orators bursting to orate, and when they get at it to and next day, the geysers won't be in it. Some one of these oratorical gentlemen is likely to spring a dark horse convention, and win out with him. It may be well to watch out for the dusky

MIDNIGHT .-- A round-up of the tion here at this hour shows that there is friction developing, and lots of it. The great fight of this convention is not in connection with the nomination of a Governor or any other officer on the State ticket, but it is centered on the nomination of a Congressman in the Sixth District, the prime cause of which is, of course, the harbor question, ir which the people of Southern California have so much interest, and of which of late they have heard so much. The friends of George Patton are wild with wrath. They openly assert that an emis-sary of the Southern Pacific is here, with a sack, and that he is buying the

The charge is made that a number the Patton men of the Los Angeles delegation have yielded to the blandishments of Col. Mazuma, and have gone the camp of Messmore, not that the railhoad has any hope of that candidate's election, but in the interest of the Repub-lican nominee. I do not state this as a fact, but as the talk of men who are as-tute politicians, who generally know what they are talking about. They claim to know the man and where his room is ocated in the Palace Hotel. And thus the harbor fight has shifted from Los Angeles and Washington, where it was but recently on the boards, to the narrow fines of a district convention in San Francisco. The vote in that convention tonorrow will disclose the game, if it has been made, but whatever results, there is destined to be a mighty hot and stormy set-to on that occasion, and if there is not lifting of hides and the hanging thereof on the fences, then

is nothing in portents and omens. The Murphy movement has gained ve-ocity, and the Budd men are walking the floor. A rumor was abroad flate in the in the interest of Maguire of San Francisco but that candidate's friends declare the re port to be but a subterfuge of the Murphy enemy. They say that Jim is in it stay, and assert their belief that he will be reminated on the first balliot hart the Marphy people laugh such an idea to scorn. However, that Murphy has grown greatly se to and body except, perhaps, ito the boomers the callow statesman from San Joaquin. L. E. MOSHER.

# Delegates "Kick" About the Accommodations Furnished Them.

SAN FRANCISCO, Aug. 21.-The Democratic State Convention met here shortly after noon today. The nomination of a full State ticket and the adoption of a platform is the work before the convention Tonight interest centers in the contest for the gubernatorial nomination and the nor ination of three candidates for Railroad Commissioners and three candidates for election to the State Board of Equalization, The contest between the factions known as "railroad" and "anti-railroad" is mainly over the naming of candidates for

these two important State boards.

For Governor, the leading candidates tonight are ex-Cogressman Budd of Stock-ton and Barney D. Murphy of San Jose. The name of Congressman Maguire is also prominently mentioned, but he is making no fight for the nomination. Tonight, however, it can be said that no one has won the battle. This is due to the fact that the practical, slate-making politicians are handicapped, none of the reputed bosses having sufficient strength to wield the

None

of these delegations have been able to effect any strong combinations.

It is confidently predicted that the convention will adopt strong resolutions against the refunding of the Pacific railroad indebtedness and urging government control of the Pacific roads. tral Committee, called the convention to order at 12:30 o'clock this afternoon. R. P. del Valle of Los Angeles was elected chairman of the convention by acclamation. George S. Patton of Los Angeles in his speech placing Del Valle in nomination made the opening attack on the railroad companies. He declared that in the coming campaign the Southern Pacific must for the first time come from behind their ramparts and fight in the open. This declaration was loudly cheered and Chairman Del Valle in his opening remarks provoked uproarious applause when he declared that he indorsed every anti-railroad sentiment that Patton had uttered. Charles F. Montgomery of Contra Costa county and Robmar Patton had uttered. Charles F. Mont-gomery of Contra Costa county and Rob-ert J. O'Reilly of San Francisco were elected secretaries of the convention. Chair-man Del Valle then appointed a Committee on Credentials, naming three delegates from each of the seven Congress districts.

The convention's first dissension oc-curred at this juncture. All along the country delegates had been complaining of the inadequate accommodations afforded in the Baldwin Theater. Over a hundred chairs had been crowded into the main floor of the auditorium in order to seat the 661 delegates. The delegates from the mining districts of Tehama, Nevada, Butte and Amador counties were crowded into and Amador counties were crowded into chairs placed within the orchestra rail.
Only by craning their necks could they see
the presiding officer, and this they did
not like. The Los Angeles men were
behind Nevada in the left orchestra chairs
and the Alameda and Marion delegates
were on the right. The country delegates were on the right. The country delegates demanded that a more suitable convention hall be provided. They finally succeeded in forcing the appointment of a committee of five to investigate and if possible se-cure a better hall.

o'clock, greatly to the disappointment the great crowd that filled the gallerof the great crowd that filled the galler-les. The boxes of the theater were crowded with ladies and a few Federal officials. Little effort had been made to decorate the theater. Across the front stage, on which provision had been made the presiding officers and members of ed from the drop curtain. A large are of President Cleveland was

called to order at 3 p.m. Chairman De Valle stated that he had appointed a com mittee to consider the question of removal to another hall, as follows: Harvey J. Jackson of San Francisco, Garrett Mc-Inerney of San Francisco, W. R. Burke of Los Angeles, John Even of Napa and C. W. Reed of San Francisco. McInerney unced that the committee would re-complaints this evening regarding the Baldwin Theater, and thereafter consider the question of removal. This did not please many of the interior delegates, who desired to fight the matter out then and there, but the committee maintained its position and gained the desired delay which the country delegates say is deteatwhich the country delegates say is defeat ing the purpose of the resolution creating the committee. It was agreed to ad-journ until tomorrow at 10 o'clock a.m., when the chairman has promised to anganization and Platform.

Before adjourning, the following Com

mittee on Credentials was announced: G. W. Mordecai, chairman, Madera; N. O. Bradley, Tulare; J. W. Hughes, San Diego; John McMurray, Trinity; James H. Wilkins, Marin; Frank R. Weihe, Sierra; W. J. McGee, Amador; B. F. Harris, Calaveras; Dan F. Donohoe, Yuba; C. H. Jamieson Lake; John Hatchett, Alameda; John Wolfs Solano; George T. Mayre, Colin M. H. Byington Joseph P. Kelly, San Francisco; Sam M. Rucker, San Jose; Thomas Renison, Monterey; A. Ramish, Los Angeles; C. A. Snook, Santa Barbara.

The Committee on Credentials held a session this afternoon and another, lasting three hours, this evening. Tonight's meet-ing was devoted entirely to the considerlation of the respective claims of the rival and J. Doty spoke for the reorganizers and J. H. Stevens for the Old Line Democrats After listening to arguments, the committee went into executive session. A proposition from the committee to sent half of each delegation was declined by both parties. Finally, by a vote of 20 to 1, the committee declared in favor of the

Associated Press Leasti-wire Service.

POUGHKEEPSIE (N. Y.,) Aug. 21.—The grand circuit meeting opened auspiciously this afternoon. The Jay's card did not develop any surprises, though all the races were interesting and well contested.

The 2:30 class, trotting: Psyche took the second, third and fourth, bests and races

The 2:30 class, trotting: Psyche took the second, third and fourth, heats and race in 2:1814, 2:2014, 2:23. Miss Weblsey took the first heat in 2:1314. King Harry and five others also started.

The 2:22 class, trotting: Queen Chy won the first, second and fourth heats and race in 2:1544, 2:1514. Ora took the third heat in 2:1714. Carl Don and six others also started.

The 2:19 class, pacing (unfinished:) Dalsy Despan, took the second and third heats in 2:1314, 2:19; Ella Eddy took first in 2:12. Judge Sterling and five others also started.

Associated Press Laused-wire Service.

CHICAGO, Aug. 21.—Alix today trotted in 2:05¼ at Washington Park, and the exhibition was pronounced by nearly all the horsemen present to be the greatest ever made in the sulky. It reduced the track record of 2:06¼, held by Nancy Hanks, and, while it fell 1¼ seconds short of the world's record, it was really a better performance, conditions considered. LONDON, Aug. 21.—(By Atlantic Cable.) The Pall Mall Gazette this afternoon says: "The excitement and mystery in yachting

circles is simmering down to a general feeling which can hardly be pronounced friendly to the American visitors." THE VIGILANT.

SOUTHAMPTON, Aug. 21.—The Vigilant is still here and further examinations of the center-board, its trunk and the yacht's keel will be made.

# Sonoma and Marin

Washington Park is at least 1½ seconds slow. It has not been so fast as formerly, since the new loam was placed on it before the June running meeting, and is in need of a good, hard race. All the drivers agree that the track is slow. John Kelly, who handled Directum last year, said: "This is the greatest mile ever trotted. Had Alix been sent against the record last week at Terre Haute she would have undoubtedly beaten it." McDowell, who handled Alix today, said the track was 2 seconds slow at the smallest estimate. PETALUMA, Aug. 21.—The Sonoma and Marin District Fair opened today.

who handled Alix today, said the track was 2 seconds slow at the smallest estimate.

The event was not called until a few minutes after 5 p.m. Although wind was not high, the air was cool and far from record-breaking. Alix scored twice and was then sent away. The first quarter was made in 0:31½; she scurried on to the half in 1:03½; she scurried on to the half in 1:03½; there McDowell let her out a little and the running-mate ioined her. She went to the three-quarters in 1:35 and came home without a break and full of go in 2:05½.

Tomorrow Directly (2:12) and Carbonate (2:19) will engage in a match race for \$2000, and on Friday the great pacers Robert J. and Joe Patchen will meet for a \$5000 purse. On Saturday, Fantasy will reel off a fast mile.

The attendance was good. A great field appeared for the 2:15 trot, but Trevellyn clearly showed the best of the lot, while Ora Wilkes was just as clearly second best. Silicon was quite a disappointment. Fidol won the 2:11 pace without trouble. The 2:30 pace brought out the hardest race of the meeting and a scandal. Dickerson, who was substituted for Thayer behind Douglass in the fifth heat crowded Maj. Ewing into the fence, causing him to fall, yet Sells got the Chicago horse on his feet and covered his distance. There was a loud protest and it was claimed Dickerson's act was intentional, but the judges decided otherwise. Douglass won this heat and the next one and seemed to have the race, but Maj. Ewing won the decisive trial amid great enthusiasm. PUEBLO, Aug. 21.—Ziegler, Wells and Foster, the great California bicyclists, have decided not to go East for the national circuit races. They will take in the Utah circuit this week, and then return to the Coast. Ziegler's friends are satisfied that he would not get fair play East. He was pocketed by Eastern men in the races here and had not show to win.

The most carefully revised information about the fire is as follows: It started in the old receiving depot adjacent to the Big Four yards on the south side of Third street, extending 450 feet east from Wood street. It was caused by the explosion of a gasoline stove inside the depot, used to heat refining tar. The total loss is \$300,000, with \$150,000 insurance.

The crime with which the men are charged was one of the most cold-blooded ever committed in Kansas. In 1890 W. H. Gibsen and J. S. Frazer were partners in Chautauqua ever committed in Kansas. In 1890 W. H. Gibson and J. S. Frazer were partners in an extensive cattle business in Chautauqua county. They imported 1400 head of Texas steers, to which the neighboring raisers objected, fearing they would spread the Texas fever. Gibson and Frazer efused to remove the cattle, however, and in consequence were threatend with death. They paid no heed to the threats but in May of that year Gibson was found dead in a hotel at Moline, Kan.

In June Frazer was missed, and, after a long search, his body, covered with knife cuts, was found in a neighboring stream. Gibson's death was thought to have been caused by heart disease, but the finding of Frazer's body led to the murder theory: Since then search for the murderers has quietly progressed, oulminating today in what is believed to be the arrest of the active participants.

the late Theresa Fair. It will be remembered that the young man claimed not only the \$500,000 bequeathed to him directly, but also the \$500,000 which was to revert to him in the event of the death of his brother James.

A former petition for distribution was denied by Judge Coffey because Charles Fair had not reached the age fixed by the will, at which his legacy should become payable. The latest petition sought to get around this difficulty by alleging the fact of the marriage of Charles to Caroline D. Smith.

The hearing of the matter yesterday was expected to give rise to an interesting controversy. Instead the attorneys for Fair submitted the matter without even a word of argument. Judge Coffey denied the application for distribution. This leaves the way open for another appeal to the Supreme Court, which will be taken at once.

California began the real work of the collegiate year of 1894-95 yesterday. The college year ending last May was the busiest on the harbory of the university, and aff the signs indicate that the collegiate year which has just begun will be the banner year of the antwersity.

During the last year a committee of the faculty, with Prof. Charles Mills Gayley as its chairman, after deliberating many months, devised a plan for remodeling the undergraduate department and reorganizing it into the College of Social Sciences and College of Applied Sciences. The change caused some confusion, but with the opening of the college year all is running amouthly, and the university surthorities took forward to what promises to be the misst successful year the University of California has ever experienced.

SAN FRANCISCO. Aug. 21.—Harry J.

Moore, son of Dr. George A. Moore, president of the Pacific Mutual Insurance Company, was shot by his brother, George, to-

day.

George said Harry had threatened his father, and he told him if he struck his father he would shoot him. Harry then struck at his brother, and the latter fired one shot, which took effect on the hips, inflicting a serious, but not dangerous wound. The shooter, who is 24 years old, was arrested.

Dr. Moore, father of the boys, is a millionaire. The boys have been on bad

terms for some time, and it is thought that today's shooting is the outcome of a long-standing trouble. George is the younger, and is a clerk in his father's employ, while Harry is married, and for some time has been without occupation. George says he thinks Harry is crazy, as he is very quarrelsome.

The trial of W. J. Estabrook, charged with embezzling a mimeograph, came up yesterday afternoon before Justice Austin in the Police Court. After a full hearing of all the testimony against the defendant, the court dismissed the complaint, as there was no evidence to show a misappropriation of the machine.

Misses Anna Cushing and Helen Broderick, who swore to the complaint, and William H. B. Hayward, manager for the Smith type-writer agency, in this city, were the witnesses examined. By their own testimony it was shown that there was no criminal intent on Estabrook's part, in fact that Estabrook acted in good faith throughout, and at the conclusion of the testimony for the presecution, Justice Austin promptly ordered the charge dismissed, without hearing any evidence for the defense, remarking that the plaintiffs had failed to make out a case.

THE TIMES-MIRROR COMPANY.

# ANONYMOUS BOYCOTTERS AND INDEPENDENT MERCHANTS.

For several years past the merchants of this city have been pestered with circulars thrown into their places of business demanding that they cease from advertising in this journal under penalty of being boycotted by a gang of scoundrels who hide themselves behind the title of "The Council of In other cases merchant who are advertising in The Times receive circulars in which their names are printed, and in which the public is warned not to purchase of them.

As we have stated, this sort of thing

has been going on for several years

past, without any appreciable effect except that it is enabling a handful of miserable, lazy wretches to get beer money without working for it, at the expense of a few hundred fools whom they lead to believe that a great warfare of "organized labor" is under way. Certainly The Times has not been injured by these tactics, but rather benefited, as such cowardly, un-American and lawless actions have gained for this journal the sympathy of thousands of good citizens, many of whom might, perhaps, otherwise have preferred some other journal. The circulation and income of The Times have gone on increasing from week to week, from month to month, and from year to year, until today even its enemies are forced to admit that it is far away the leading paper in its field, or for that matter, of the State, outside of San Francisco, while some of our good friends are partial enough to say that it runs the metropolitan press of the Bay City very close in appearance and contents. We do not which has now lost its say this in any boasting spirit. The Times has climbed too far up the ladder to have to do any of that kind of work. We simply mention the fact as a proof that the petty, sneaking, lowdown, unmanly and altogether despicable tactics of this organized gang of loafers have been entirely powerless for evil, as far as The Times is concerned, which is a proof that the population of Los Angeles consists in the main of broad-minded, independent American citizens, who will not be dictated to by irresponsible ruffians.

What is true of The Times is also true, as far as we can see, of those merchants who advertise in this jour nal. Their stores are crowded with customers from morning to night, and they appear to be doing a far better business than their competitors who do not see fit to avail themselves or space in our columns. If the boycott, which has been persistently worked against those who advertise in The Times for now four years, is ever going to have any effect, it certainly ought to begin to make itself evident by this time. But it has not. At least, the effect is not visible to the naked eye. On the contrary, as far as can be observed by an outsider, firms which do the most advertising in these columns are the most The consequence has been that the prosperous in the city. preposterous and a subject of ridicule

Leaving, however, the question as to what effect, or lack of effect, this cowardly persecution has had upon the merchants of the city who are subjected to it, the question naturally arises: What have these men done to we such treatment? Are they men who have done something to de-serve the enmity or contempt of the le? Do they oppress the poor, or They are good American citizens, taxpayers, men who attend strictly to siness, treating their numer employees well, and paying them

What, then, is the reason that these hould be thus annoyed? There reason, but the excuse for this on is that the merchants in ques-

tion have the temerity to make their announcements to the public in the columns of a journal which they know to be the best advertising medium Otherwise, they would certainly not be willing to pay more for such an nouncements than they are asked to pay for space in other Los Angeles This paper, however, happapers. pens to have incurred the displeasure of these anonymous and contemptible bummers-a displeasure which we would much rather have than their friendship-by our persisting in the outrageous attempt to run our business to suit ourselves, hire and discharge whom we please, and pay our employees such wages as may be mutually agreed upon between us and them-rates which in this case, by the way, happen to average higher than the city; and because of this-because these merchants do not happen to look at the question in the same light as these disreputable "walking delegates"-they have been for years and still are annoyed by the printed insults of a gang whose failure to apcirculars is proof that they know that they are engaged in illegal work. If they think, however, that this sneaking subterfuge will continue to shield them from the arm of the law, they are very much mistaken. What an outrageous and altogether remarkable spectacle is this to witness in the freest and most enlightened country upon earth! What a commentary upon our boasted civilization and free dom of action!

It is true that in the past some few of our merchants have encouraged these lawless men in their tactics by paying some attention to them, which they would not have done had they given the matter a little serious cor sideration. In these days of competi tion, however, a merchant is naturally inclined to be somewhat nervous at the prospect of losing any part of his trade, and knowing this, these men went deliberately to work to make the merchants believe that they-the boycotters controlled an immense patronage, which would be lost to those firms that refused to comply with their absurd and arrogant demands. Of course, this was all talk, and the merchants have since found it out.

Even supposing that these men

should fulfill their threats and with-

draw their patronage, does anyone

suppose that such patronage amounts to more than a fraction of the trade comes from Los Angeles citizens? The laboring men and artisans of Los Angeles are not all boycotters, neither are they fools. The cotters, neither are they fools. The of the government that they were to "boycotters' trade," of which we have achieve faded before the actual realities heard so much during the past few years, is a bogie man which scared some of our merchants for a time, but sponges and leeches of the "Council of" Labor" have no character, no influence, and less money. They usually have not a cent except the pittance that they wring from labor by assess ments thereon. It does not seem to have occurred to these shallow-nated proscriptionists that they are not the only people in the city who can play at that kind of a game. The orderly, respectable and independent citizens of Los Angeles are certainly in an overwhelming majority, and those citizens will prefer to deal with firm which in these dubious times show the true American spirit, and indignantly refuse to be dictated to or bulldozed by a handful of insignificant scour drels who, as we have previously stated, ought to be in the chain-gang. Not only is it reasonable to suppose that citizens would do this, but they have done it, and this is one reason why the business men of Los Angeles now laugh at the threats and insults of the boycotters, although at the same time they resent them, as they have a right to do. One day, after his advertisements had been with drawn, a certain merchant has been pronounced "all right." The next day. when he has inserted his announce ment again, he has become a "scab."

The various verdicts of the victous gang are a farce. The merchants need not fear that they will lose the trade even of this small band of gophers, insignificant as this trade is. It is a well-known fact that they have, on many occasions, sought to impress the merchants with a sense of their importance by sending members of their families around to price and purchase goods, and then, at the last moment, after everything had been packed up ready to be delivered, suddenly discovering that the firm was advertising in The

whole business has become altogether

the beginning of the boycott, but they soon "caught on" to the contemptible little game. We venture to say that any one of these Council of Labor fellows, or his wife, or his sisters, or his cousins, or his aunts would walk half dozen blocks to buy anything that is offered 5 per cent. cheaper in a boy cotted store than he or she could get the same goods for from a firm that they had succeeded in temporarily scaring out of the columns of The

Times. Just at present there are four firms which are being especially picked out for annoyance by these boycotters, because they happen to be large advertisers in these columns. It is rather a smart frick on the part of these men to thus single out a few names, because if they should print a list of all the advertisers in The Times it would be something like publishing a business directory of the city, and would plainly show their dupes how futile their efforts have been to scare the merchants or injure this paper. So they have just now sethe following four names, which they print on a slip of paper with the statement that these firms are on the black list, because they advertise in The Times:

J. T. SHEWARD,
A. HAMBURGER & SONS,
J. J. O'BRIEN & CO.,
J. M. HALE & CO.
These firms ought to be proud of the distinction which they have thus had thrust upon them, and they doubtless are. At least one merchant-Mr. J. T. Sheward-has had the nerve to paste up the slips in his show window, and to announce in his advertisement in these columns that the boycotters can do as the please, as far as he is concerned, but that if any one of these his name to one of these circulars and throw it into his store, he will do his best to send that man to the penitentiary-an effort in which we promise him the active co-operation of The Times. Mr. Sheward says in his advertisement:

"We have made a contract for a year with The Times, and we intend to fulfill our contract. When they earn their money they will get it. If anybody wants to stay away on account of our advertising they are at liberty to do so. If any men will sign are at therety to do so. It any man will sign his name to a boycott circular against this house, the writer will use every effort known to the taws of this country to send him to the pentientiary. BUZZARDS' BAY (Mass.,) Aug. 21.—Reports have been received from Weinlington that there is keen interest manifested, there in dispatches from Buzzards' Bay about the physical condition of Prevident Cleveland. There is nothing in his outward physical apparame to indicate that he is much of an invalid. His complexion is yellow, and his movements are more pondenous than they were two years ago, but this is not at all supprising, for Mr. Cleveland is heavier in weight, and his muscles of focumotion have become impaired from disure. When his habouts of life are considered, it is not at all strange that his physical condition should gradually but surely become impaired. His weight is now in excess of three hundred pounds. Exercise of any kind is not taken. A walk to the President means slowly descending the stairs to the White House porch and stepping into a carriage, and reversing the foot journey when the brief drive is at an end.

The only real outdoor air the President minimus, except such as enters the musty old Executive Maniston through, the open windows, is obtained during the drive in the afternoon. Then it must be donsidered that he slowly plots at his desk through a mass of papers day in and day out, giving his time to the minutest details.

WASHINGTON, Aug. 21.—Additional errors in punctuation in the new tariff bill are constantly being discovered by the Treasury officials. Today an important mistake was found in sec. 5 of the free list. This section provides that articles of foreign manufacture must be stamped with the name of their origin and then says: "And, unless so marked, stamped, branded, labelled; they shall not be delivered to the importer, should any article of imported merchandise be marked, stamped, etc., in excess of the annuity exactly contained in such article."

It is assumed that there should have been a period established between the words "importer" and "should," but as there is none, the paragraph as it stands in unintelligible and may lead to serious embarrassment in its execution.

in unintelligible and may lead to serious embarrassment in its execution.

Up to this time Mr. Carlisle has not asked any opinion of the Attorney-General upon the many mistakes in the bill, and he will probably not do so until after the bill becomes a law. The Secretary, however, has expressed the opinion that all goods now in bond which have been changed from the dutiable to the free list, will be subject to the duty in force when imported, if withdrawn for consumption.

The goods can, however, be imported and then reimported and thus receive the benefits of the free list. This was not benefits of the free list. This was not the intention of Congress. Farly in the preparation of the bill, this question was raised, but the words "or withdrawn for consumption," which appear in the en-acting clause, were then changed to clearly-indicate that goods in bond could be with-drawn at the new rates. But the true significance of the words "and mentioned in the schedules herein contained," which follow, do not seem to have been fully understood. Early in the

It was shown that the majority of the Senate was for the bounty. When the Senate was for the bounty. When the Senate was for the bounty. Senator Stowart may not vote, which would leave the Vice-President to decide against the bounty on a tie. But it is thought by some who advocate the bounty, that before the vote on the Free Sugar Bill can be had, there will be three more Republican votes in the Senate. There are vacancies from Mordana, Washington and Wyoning, and it is chilmed by the Republicans that the legislatures elected this fall will be Republican.

A Convention to Discuss the Conditions in Illinois.

SPRINGFIELD (III..) nance of a sub-district organization throughout the various fields of the State as will be presented to the convention by the State officials.

Third—The propagation and maintenance of the State organization throughout Illinois, and for the transaction of such other business as may be constitutionally presented to the convention.

President Crawford says that in a period of twenty-five years, during which time he has been connected with the business, he has hever known the comittion to be so unsatisfactory as at present. There is no uniformity in prices and the demand for the product of the mines is so light that if all the mines in the State were run to their full capacity, one and one-half days per week, the result would be sufficient for the market. In the Northern Illinois field where the mines are in operation, the rate paid in most instances is about 10 cents per ton below the scale adopted in June last at Springfield, notwithstanding most of the mines in other portions of the State, are paying the scale. This, of course, brings about an unsatisfactory condition.

This, of course, brings about an unsatis-factory condition.

The Springfield and Peoria and Canton The Springfield and Peoria and Canton discretely are sall paying the Springfield scale with the exception of the White Breast Company, which operates the Dumfermilne, the Buckhart and the Bryant mines. This company has imported 125 or 130 negroes from Kentucky and Tennessee, but President Crawford says that he had advices to the effect that the negroes have decided to go out until the white men go to work. In the Springfield district the scale of 45 cents per ton is district the scale of 45 cents per ton is being paid, but the mines are not in oper-ation over a third of the time, the opera-tors declaring that there is very little demand for their product, as they cannot compete in the market with Pana cost, which is mined for 29 cents per ton. The condition of the Danville district is unsat-teratory owing President Crawford deisfactory, owing, President Crawford de-clares, to a violation by the operators of a written agreement entered into with the

written agreement entered into with the miners.

But little is being done in the Southern Illinois field. Some of the great consolidated companies mines are in operation, others are not. So far the operators are all at sea and do not know how the existing unsatisfactory condition is to be remedied, but they are going to try to find a regreedy at the convention.

The Governor Investigates the Distress at Pullman's Car Works.

The Strike Commission Resumes Its Hearing—'Frisco Guardsmen Expelled—A Closing-up at Fall River.

CHICAGO, Aug. 21.—Gov. Altgeld spent several hours today with the citizens of Pullman. He was told that 2436 families

CHICAGO, Aug. 21.—Gov. Aligeld spent several hours today with the citizens of Pullman. He was told that 2436 families had been helped.

"I do not know just what method I shall take with these men," said the Governor, "but something must be done. I have written to George M. Pullman."

"I can do little myself," continued Gov. Aligeld, "and if anything considerable were to be done, the money would have to come out of the government's financial reservoirs. I might convene the Legislature for the purpose of making an appropriation, or I could make an appeal to the people of the State. I think we have gone to the bottom of things now, and can proceed intelligently, and it remains to be seen what can be done."

The Governor used these words at the close of the meeting respecting the Pullman strike issue. At the invitation of the Governor, the committee met at his office and gave him information regarding the strikers.

The Governor tonight issued the following proclamation:

"To the people of the State of Illinois and especially those of the city of Chicago: There is great distress growing out of the want of food in and around the town of Pullman. More than a thousand families, or in the neighborhood of six thousand people, are destitute — nearly four-fifths of them are women and children. The men have endeavored to get work, but were unable to do so. As a rule the men are a superion class of liberal, industrious, capable and steady workmen, and some of them have worked for the Pullman Company for more than ten years. Those who have been given work can get food, but are still in such an impoverished condition that they cannot help their neighbors if they would. The Relief Society is unable to get more supplies. On last Saturday, they gave to each family two pounds of oatmeal and two pounds of cornmeal, and, having nothing left, have suspended operations, leaving the people in an absolutely helpless condition. The County Commissioners of Cook county, as overseers of oatmeal and two pounds of cornmeal, and, they cannot

but, owing to the limited appropriation, they can furnish relief but for a short time.

"We cannot stop now to inquire into the cause of this distress. The good people of this State cannot allow women and children by the hundreds to perish from hunger. I, therefore, call upon all humane and charitably-disposed citizens to contribute what they can toward giving relief to these people."

The Governor has called on the Commissioners of Cook county to do all in their power in the matter.

The correspondence between Gov. Altgeld and Pullman began last Sunday, when, in response to an appeal made to him by the Pullman strikers for assistance, Gov. Altgeld sent a lengthy telegram to Pulman, calling his attention to the appeal, and saying: "The strikers, it is claimed, struck because, after years of toil, their wages were so reduced that their children went hungry. Assuming that they were wrong and foolish, they had yet served you long and well, and one must feel some interest in them. They do not stand on the same footing, as you, so that much must be overlooked. The State of Illinois has not the least desire to meddle in the affairs of the company, but it cannot allow a whole community within its borders to perish of hunger.

"The local overseer of the poor has

company, but it cannot allow a whole community within its borders to perish of hunger.

"The local overseer of the poor has been appealed to, but there is a limit to what he can do. We cannot help them very much at present, unless relief comes from some source I shall have either to call an extra session of the Legislature to make special appropriations, or else issue an appeal to the humane people of the State to give bread to your old employees. It seems to me that you would prefer to relieve this situation yourself, especially as it has cost the State upward of \$50,000 to protect your property, and as both the State and public have suffered enough loss on account of the disfered enough loss on account of the dis turbances that grew out of the trouble between your company and its work

men."

After making a personal visit to Pullman, Gov. Altgeld today addressed a persoral letter to Pullman, saying:

"I examined the conditions at Pullman yesterday and visited even the kitchens and beforoms of many of the people. I

learn from your manager that last spring there were 3260 people on the payrolis. Yesterday there were 2220 at work, but over six hundred of these are new men, so that only about sixteen hundred of the old employees have been taken back, it has leaving 1000 of the old employees who have not been taken back. A few hundred have left. The remainder have applied for work but were told that they were not needed. These are destitute. The Relief Committee has exhausted its resources. It seems to me your conpany cannot afford to have men appeal to me for charity and the humanity of the State to save the lives of your old employees. Four-fifths of the people are women and children. No matter what caused this distress it must be met." He then proposes that the rent of all unemployed be remitted until October 1. Pullman replied at length. He said: "While it has not been reported to the officers of this company by any persons concerned that there was any such extended distress at Pullman as was reported for the first time by the extraordinary methods published in the telegrams to you in your official capacity, I do not doubt that there are many cases caused by the refusal of the employees for more than two and one-half months to earn offered wages to the amount of \$300,000; and that such cases have been increased and made more severe by the resistance of more than six hundred and fifty of our employees in their refusal to apply for their old places, after the strike was placifically over, and as they were publicly invited on July 18 to resume their work unless by the gradual coming of new men during the whole month, their places have been filled and the full force engaged for all work on hand.

"The suggestion that the work should be divided to that a sufficient number of our present employees should be put on faif time, in order to give at least baif time, in order to give at least baif time, in order to give at least baif time, on full time."

To this the Governor replied substantially as tollows: "I see that your company

Hampton, C. L. Markle and G. F. E. Steidle.

Among the men expelled are several of the crack shots of Co. C, which has the reputation of being the best-shooting company in the National Guard, as the trophies it has won amply prove. There is an ex-lieutenant of old Co. C, before it was divided into Cos. C and G. An old Union veteran, who has been for years in the company, and several privates who have heretofore held enviable records in their company, are among the men "bounced" out of the service by the two-thirds vote.

The officers of the companies say that the only reason for the action taken was that the privates of the company desired that an example be made of the men who falled to do their duty. The privates say, but say it quietly, that the reason they voted to expel their comrades was to save them from being court-martialed and forever thrown out of the service. The latter is probably the true reason.

"When business gets slack," he said, "the commethods of the Pullman Company. "When business gets slack," he said, "the company's employees living outside of Pullman are ordered to move into the company's houses, on peril of losing their positions. The men who have attempted to buy homes on the installment plan are first laid off when the force is reduced. One man who was injured in the shops was taken to the hospital. Later I saw a sworn statement, purporting to be signed by him, in which he said the accident was entirely unavoidable. I know the paper was a forgery, for on the date on which it was made the man was unable to write his name. One of the worst features of the Pullman system of house-renting is the immorality it encourages. Many of the workmen are compelled to reat rooms. owners.

Several gentlemen, who may be considered authorities on the subject, when questioned yesterday regarding their opinions on the matter! expressed themselves as believing the repairing should be done at the expense of the property-owners. The argument was advanced that it is the duty of property-owners to keep sidewalks in repair, and, since a good curb is necessary for the proper maintepance of a sidewalk, the property-owners abould keep the curbs in good order also. The State law appears not to bear on the subject further than to give the City Council power to compel the property-owners to put in a new curb.

Bids are advertised for, to be received by the City Council next Monday, for the sewering of what' is known as the Mapleavenue sewer district and also for the sewering of what is known as the "Western interceptor sewer district No. 2," embracing the territory lying between Washington and Thirtieth streets and west of Main street.

# A Bad Intersection.

Thomas Johannsen has filed a communication calling the attention of the City Council to the condition of the intersection of Hinton and Beaudry avenues. As the streets now are, he says, the large volume of rain water which will come down Hinton avenue will strike the grade of Beaudry avenue and flood the proprety of the petitioner on the north side of Alsine street.

The Fire Commission will meet this morning.

The committee of the school board having in charge the matter of the contract for the heating and ventilating of the High School was in session for a time yesterday morning, considering the various kinds of boilers proposed to be used. No action was taken and the meeting was adjourned till this morning. Street Superintendent Watson states the flushing of the sewers under the new method is working satisfactorily. Two men employed on the department are kept busy with the flushing. One of them starts out in advance of the other, over a certain route of flushtanks, and starts the water running in each. By the time the other man reaches a tank, the reservoir in it has been filled sufficiently to discharge, and he turns the water off. The two men are able to flush each tank in the hill district once in two days, and each of the tanks in use in other parts of the city once in three days. This manner of doing the work, however, insures the tanks being thoroughly flushed.

AN IMPORTANT DECISION BY JUDGE CLARK. Judge Clark yesterday rendered his de-Judge Clark yesterday rendered his de-cision in the case of J. F. Wilson vs. D. O. Miltimore and the Usiversity Bank of this city, an action to quiet title to the SW4 of sec 16 S. R 13 W, ordering findings and judgment for the defendant therein, for the reasons sot forth in the following opinion: "The defendant corporation was not served with process and does not ap-pears and answers to the complaint. At swelt meeting to have been unpaid, asset in the been paid and the sun paid as alone license of Quaries J. Shong, at No. 418 North Main street, ladd over from let week, was a very color. The clerk reported that the July asloom special was not a street with process and the same of the street was a street was a street of the complaint. At the street was a s pears and answers to the complaint. At the trial it was stipulated that on July 23, 1887, one C. N. Wilson was the owner in

gagor, the said C. N. Wilson, and is, therefore, null and void; while the defendant urges that the conveyance by the bank to Miltimore passed the title and was not void but voidable only. A decision of this question, however, is not necessary to a determination of the case. Admitting that the deed from the bank to the defendant Miltimore did not pass the legal title, it did pass whatever interest the bank had, i.e., the interest of a mortgagee. If the instrument of July 23, 1887, was a mortgage then the instrument of March 14, 1892, should in equity be construed to be an assignment thereof and the grantee subrogated to the rights of the grantor. This action being to quiet title it is in the nature of a bill in equity must do equity applies. (Benson vs. Shotwell, 87 Cal., 49.) And to do equity here would require the payment of the amount due upon the bonds as security for which the instrument of July 23, 1887, was given. As said in Brandt vs. Thompson (91 Cal., 459.) the way to quiet title against a mortgage is to pay it. It is not contended that payment had been made or tendered. Defendant is ordered to draw findings and a judgment for costs.

Judgment of Judge Snaw, in the case of Jane Ramboz (appellant) vs. N. W. Stow-ell (respondent,) an action to quiet title to a lot of land in this city, for the reasons set forth in a lengthy opinion by Commissioner Vanchief, which was re-

commissioner Vanchief, which was received here yesterday for filing in this city.

The only questions which the court deems worthy of special consideration are as to whether or not the finding of the trial dourt that plaintiff was estopped from denying that Margaret J. Starkey, from whom both parties claim title, was a widow at the time she acknowledged a deed to the lot in controversy to Helen L. Grinnell, is supported by the pleadings and justified by the evidence. This showed that on June 13, 1878, Mrs. Starkey, for a valuable and sufficient consideration, signed, sealed and delivered to Helen L. Grinnell a deed of the lot, which was acknowledged before A. C. Holmes, a notary public, in the form required for an unmarried woman. On September 19, 1887, Helen L. Grinnell conveyed the lot to Stowell for \$11,000, but on May 13, 1891, Mrs. Starkey, for the nominal consideration of \$100, without any valuable consideration, conveyed it to the plaintiff, who is her daughter, and, although the latter had actual notice of the prior deed, she commenced suit on the following day. It was also shown that Mrs. Starkey deserted her husband in Illinois in 1869, and that she intentionally misrepresented herself as a widow, and an unmarried woman, for the purpose of deceiving Miss Grinnell's agent, so that she might lay claim to the land.

FIGHT to the finish is the heading of a boycott circu-A lar issued against a few of the business men of this city. The business men are in no fight. They don't want a fight. At the same time they cannot afford to sit idly by and allow a handfull of men to injure them and their business. We are reliably informed that one man is paid salary of \$18 a week to conduct this fight against those who advertise in The Times. This one man is given supreme authority to write and send broadcast whatever he cares to and against whom he wants to. It seems strange that the intelligent laboring men will allow themselves to be led into a trap that is sure to land one or more in the penitentiary if this matter is kept up. The writer of those circulars is committing a crime and we now warn him to desist. The labor organizations are committing an error when they allow their name to be used for an unlawful purpose. A QUEER CASE.

The Police Puzzled Over a Strange Robbery.

Detective Bosqui has been at work on a queer sort of a case for the past two days, and has not yet got to the bot-tom of it. On Monday afternoon he was notified that the saloon belonging to A. E. THE LEGGER ASSAULT. Finley Held to Answer Before the Superior Court.

preliminary examination of W. J. The preliminary examination of W. J. Finley, charged with assault with a deadly weapon on the person of his employer, George Legger, last Friday, was commenced at 3 o'clock yesterday afternoon before Justice Austin. Theodore D. Metzell, a tinher residing at No. 793 Temple street, was the first witness called to the stand. a tinher residing at No. 188 Index tand. He testified that they were working on a new house on Twenty-eighth street near Main on the day of the assault, and that Legger had discharged the defendant afterusing abusive language toward him and calling him a "botch." Legger pushed the defendant, who got angry and struck Legger twice with a saw, which he was holding in his hand. Metzell declared that Legger did not strike the defendant at all. C. E. Foster, residing at No. 3015 South Main street, was the second witness. He testified that he saw the affair from the window of his father-in-law's house, not ten feet away. He also stated that Legger made no attempt to strike his assallant. Other witnesses corroborated the testimony given by Metzell and Foster. Justice Austin ordered that Finley be held to answer before the Superior Court. Friends procured his release upon \$500 bonds.

gang captured by Detectives Hawley and Auble last Saturday evening.

It has been proven beyond a doubt that they are the men who entered the residence of William Seastion at No. 609 Ceres avenue about a week ago and ransacked the whole house. Mr. Seastion brother-in-law caught one of them at the door, but let the Tellow go when he found that he had stolen nothing.

There is a stronger case against Rogers and Wilson than there is against their pal Blake. The last is the leader of the gang, and has covered his tracks better than the others.

and has covered his tracks better than the others.

Rogers was arraigned yesterday afternoon for burgiarizing the house of Miss.

H. E. Daley, on the corner of Fifth and Wall streets ten days ago. Justice Austin set bail at \$1000 and fixed the preliminary examination for this morning at 9:30 o'clock.

Rogers told the court that he was but 17 years of age, although he appears to be at least 21. He is the hardest looking citizen of the three.

PASADENA, Aug. 21.—(Special Correspondence.) It has been officially declared that the human remains which were brought down from the mountains Monday morning are those of the lost Lang C. Winston, and the next step will be to inter them with fitting ceremonial, which will be done at Mountain View Cemetery, the funeral taking place from the Presbyterian Church at 2 p.m., Wednesday, Corbner Cates came up from Los Angeles today and impaneled a jury comprising Thomas Banbury, E. Lockett, S. O. McGrew, E. A. Mote, B. A. Sparks, S. Weight, G. A. Swerdinger, Thomas Grimes and G. W. Benedict. The jury viewed the remains and proceeded to hear the testimony of W. S. Wright and Peter Stell, who were both positive as to the identity of the dead man. The Coroner was satisfied, and the jury, after a few minutes' deliberation, gave as a verdict that minutes' deliberation, gave as a verdict that Lang C. Winston came to his death in some unknown manner while lost in the Sierra Madre Mountains,

A ROW AT THE ARENA.

A disgraceful row occurred on the show ground, corner of Raymond avenue and Vineyard street, Monday night at about 10:30. Some half a dozen or more young fellows undertook to enter the "menagerie" without paying for tickets, and were opposed by the employees of the show, one of whom defended the carvas with such provess that he knocked out several of his adversaries before he was overpowered by excess of numbers. When reinforcements came to his aid the Pasadena boys were soon whitped out of the ring, with injuries more or less severe. The most severely hurt in the melee was Charles Calvin, who, according to report, suffered the breaking of a few ribs and was otherwise wounded. Warrants were issued for two of the showmen, but they escaped from the officers by changing a Santa Fe train up the road and making good their way to Fomona, the show's stand today. Constable Slater frilowed the showmen to Pomona with the warrants today, intending to bring back the two, but he returned at 6 p.m. without his prisoners. Conflicting stories about the fracas are abroad, but it seems to be the opinion that the showmen did not begin the trouble.

BURNED WITH MATCHES. A ROW AT THE ARENA.

BURNED WITH MATCHES. bright baby boy of Henry Newby was ly burned this afternoon at the family see on Adelia avenue. The little boy, who between 3 and 4 years old, was playing the back yard in apparent safety, but he in some manner secured some matches a which he amused himself until in ignitione, his clothing caught fire. His screams ught help to him, but not until his chest been badly burned. Dr. McAllister was ed and gave rollef to the little sufferer, see burns, though severe and painful, are necessarily dangerous.

SAN DIEGO, Aug. 21.—(Special Correspondence.) W. J. Cornell of El Cajon Valley has been arrested for violating a regulation of the United States postal law. He is the person who has been accused of running a bogus home for boys.

Ante-convention political skirmishing is the iveliest seen hereabouts for many years. All lay Monday and all Monday hight there was caucusing on street corners and in hocks and in saloons, the latter favorite resorts. As time for the convention draws near tlooks more as if the old "machine" would riumph. There is a lot of talk about smashing slates, but when inquiry is made among hose who know, it is pretty plain that the socile who have been running politics for he past few years are still doing business i the old stand. Jim Copeland, who assumes to be the luckley or the Burns of this neck of the cods, apparently has things pretty much is own way for State Senator. D. L. Withgton came out for that race on Saturday, at the machine is against him, and he does not seem to be in it to any great extent. The death of Hosmer P. McKoon came as painful surprise. The Trustees Hold a Brief Session—
Sunday Peddling Tabooed.

SANTA MONICA, Aug. 21.—(Special Correspondence.) The Town Trustees, three out of five met on Monday evening and held a session proportioned as to length to the attendance. Rev. George H. de Kay, during the session, called attention to some features of the Sunday here, and the trustees took the preliminary steps for shutting off the cheap Johns on Sunday. The business done followed this order.

The Finance Committee reported favorably upon bills aggregating \$215.47, and they were audited and ordered paid. Among them was the bill of \$15 presented by the plumbing inspector at a former meeting, and laid over. This was allowed, but immediately a resolution was spread upon the minutes to the effect that hereafter the inspector should collect his fee from the plumbers, and not from the town. The resignation of George Boehme as plumbing inspector was then taken up and accepted.

Dr. Hamilton asked the privilege of cutting eucalyptus trees from the front of his premisas on Fifth street, which was granted.

Leroy D. Brown communicated to the hoard the fact that he held a lease upon all of the Santa Monica Bank building except the ground floor, and desires to re-lease the hall and offices now occupied for town purposes to the Present tenants. The matter was laid over.

The Health Officer asked that authority be delegated for plumbing inspection, and the Board of Health was empowered to appoint an inspector pro tem.

Thomas H. James made some suggestions regarding the Seventh-attect grade and bridge approaches, and the matter was referred to the Street Committee with power to act.

The Town Attorney was instructed to draft an ordinance for future consideration, which would empower the Marshal to prevent street hawking on Sunday.

The board then adjourned, and immediately reorganized as a Board of Equalization for further consideration of the assessment reliretured by the Assessor.

Conger, of this city, got as an experiment a carload of assorted goods from Curtis & Reed of Piqua, O., who make a specialty of and are noted throughout the United States for their fine custom hand-made work. The goods attracted much attention, and were propounced by eil who saw them the finest ever exhibited here. Thirty days after their arrival every vehicle had been sold.

Within the past few days they have received a second carload from the same firm, finer even than the first. Among the new things are a couple of surreys and a fine doctors' buggy, fitted with the new rubbet tire and ball-bearing, which nobedy at all interested in fine carriages should miss seeing. The ball bearings, besides the durability they add to the wear of the vehicle, and their cleanliness, have the effect of making the carriage run so much lighter as to be almost incredible, one horse pulling with ease as much as four horses could pull without them. The rubber tires render them entirely noiseless, as much so as a first-class bleycle is, and have the additional peculiarity that they splatter no mud nor dirt. To the person riding there is not the slightest joit or jur perceptible, even when crossing street-car tracks or like obstructions. The sensation is as detachtful as it is novel. Messrs. Botts & Congre keep one of the surreys ready at their store. Nos. 332-334-338 South Main street. Westminster Hotel Block, and take customers out; riding at any hour of the day, that they may see for themselves how delightful they are. They sell these fine goods at factory prices, and warrant them in every respect.

Result of the Second Day's Play of the Southern California Tournament - The Various

Winners.

SANTA MONICA, Aug. 21. —(Special Correspondence.) The second day's play in the tennis tournament opened with the continuation of the all-comers' singles. Lester, matched against Cosby, played

Lester, matched against Cospy, played a well-contested series, losing the first set, 3-6, but winning the next two and the series by 6-2, 6-4. Bumiller beat Spence in two sets, 6-3, 6-1, and F. Carter was able to retire Lester in two sets of 6-3, 6-2.

Then came the beginning of one of the hot contests in the semi-finals. Bumiller, with Wilson in the preliminaries, and in-cluding Barry and Spence, in the first and second rounds, met Freeman, who had ciuding Barry and Spence, in the first and second rounds, met Freeman, who had not lost even a set in his two series with Smith and Way. Play was close and careful from the beginning, and shortly after noon the first series went to Bumiller, on the pretty score of 8-6.
Play opened in three courts in the afternoon. Next to the grandstand, Bumiller faced Freeman for the second set, which was close and exciting from start to finish. When the set was five off the contestants played at deuce and vantage back and forth until the spectators were nearly as warm as the players themselves. Finally a point followed vantage in, and Bumiller led by 6-5. This, however, seemed to put metal into his antagonist, who took three straight, winning the set by 8-6.

The play at this point had narrowed pretty closely down toward determining who should meet R. P. Carter, champion of two tournaments, and there was increasing interest an that account. F. Carter would play the winner of the next set, but no one cared to hazard a guess as to his name. Play opened with spirit on both sides, and, after a hard fight, Bumiller took both set and series at 6-4.

Drawing in the all-comers' doubles, in which play opened with the afternoon programme, pitted teams against each other as follows: Cosby and Way against Obburn and K. Carter; Barry and Young against W, and G. Corson; Freeman and Picher against Bumiller and Germain; Acker and Wilson against K. Carter and Picher against Bumiller and Germain; Acker and Wilson against K. Carter and Picher against Bumiller and Germain; Acker and Wilson against K. Carter and Picher against Bumiller and Germain; Acker and Wilson against K. Carter and Picher against Bumiller and Germain; Acker and Wilson against K. Carter and Picher against Bumiller and Germain; Acker and Wilson against K. Carter no by 2-6, 6-4, 6-2; Cosby and Way over Osburn and K. Carter, being played for in the afternoon.

The finals in the singles will be played off Wednesday, the championship cup now held by R. P. Carter, being played for in the afternoon.

The grand stand showed an immense number of spectators, with rising interest in the results. Among new faces noted on the benches were: P. and M. O'Pooley, Rusk Harris, Judge Campbell, Miss Innes, Miss Whitely, Mrs. Peckham, Mrs. Waddilove, Lieut. Baker. O. W. Childs and wife, Capt. Bolton, Mrs. Walter Maxwell and daughter. H. A. SECOND DAY OF CAMP LIFE AT SANTA MONICA.

A Series of Battalion Drills Inaugu rated by Col. Schreiber, Under the Instruction of Lieut. McIver.

CAMP SANTA MONICA, Aug. 21 .- (Special Correspondence.) One day has wrought a wonderful change in the appearance of the camp, and indications now are that the ensuing week will be one of great benefit to both officers and men. Col. Schreiber has inaugurated a series

Col. Schreiber has inaugurated a series of battalion drills, the first being held this morning, the colonel being assisted by Lieut. McIvers of the regular army in the capacity of instructing officer. The seven companies of the regiment were consolidated and then divided into four companies of equal strength, after which a number of maneuvers embracing comcompanies of equal strength, after whitea a number of maneuvers embracing company and platoon movements were gone through with. The result of the first day's experience under professional instruction is, of course, more encouraging than flattering, but the men are anxious to learn, and most of them grasp the new ideas readily, so that skeptical taxpayers need have no fear but that the State will get full return for the money spent in bettering the condition and increasing the efficiency of her citizen soldiery.

Lieut. Last, regimental inspector of rifle practice, is here and expects to have a range constructed in a few days, where the crack shots of, the several companies may compete for championship honors and such trophies as may be provided.

Brig.-Gen. C. C. Allen, Adjutant-General of the State, is expected down some time during the encampment and will probably be accompanied by the commander of this brigade, Brig.-Gen. Johnson.

The camp and adjacent territory for drill more then meet the expectations of the

brigade, Brig.-Gen. Johnson.

The camp and adjacent territory for drill more than meet the expectations of the men, and are particularly adapted to movements in extended order and skirmish firings. The distance of the camp from town (nearly, if not quite, a mile) detracts largely from the social advantages of the week, but no doubt will have a noticeable effect on the result most desired, the education of officers and men in anticipation of a possible call to take up arms in active service.

Comparatively few ladies have as yet

cation of officers and men in anticipation of a possible call to take up arms in active service.

Comparatively few ladies have as yet found their way into camp, but most of the guardsmen are more or less enterprising, and it is expected that each man will be provided with a "summer girl" before the end of the week. The town and beach are thronged with the latter, many having come from Los Angeles and other cities of the South, purposely to be present at this time.

One member of Co. F was nabbed by a sentry this morning, while making advances toward a couple of pretty girls in a buggy, who drove up near the line, and, being evidently bent on a fiirtation, invited him out to tell them about life in camp. He now languishes in the tent, reserved for such offenders at the post of the guard, and rues the day when he allowed his gallantry to get the better of his military discretion.

Two members of a Ninth Regiment company wandered away on Monday night and were taken in by the guards of the Seventh. They were sent home this morning, under a strong guard, they having made several attempts at escape, and once nearly succeeded, the corporal on duty barely saving the honor of his relief by felling the fugitive to the ground by a blow from the butt of his musket, and holding him until relinforcements arrived. So far there have been no personal encounters between members of the two regiments, and it is hoped that the feud, friendly though it for the most part is, that has existed for a number of years will be wiped out, and the hatchet buried at this encampment.

Co. A has arranged for a grand entertairment and ball, to take place in the town proper on Thursday night, and many of the men are preparing to attend, some even having sent to Los Angeles for suitable company, fearing their inability to secure it here on so short a notice.

Quite a diversion was created this afternoon, during the "non-coms." school at headquarters, by a large snake of the

species known as red racers, which wriggled its way out of Adjt. Alicono's tent and darted through beneath the chairs of the assembled sergeants and corporals. A squad quickly formed and gave chase, and the body of his snakeship soon decorated a near-by tent pole, from whence it was later removed by the police detail of the guard.

The detail for guard for tomorrow is Capt. C. H. Fernal of Co. F, officer of the day; Lieut. D. R. Weiler, Co. F. officer of the guard, and Lieut. J. C. Abbey of Co. G, junior officer of the guard. Co. F has the first real sick man of the encampment. Private Vogt, who came down with a severe attack of the munps and was sent back to Los Angeles this afternoon, by order of Maj. Barber, regimental surgeon. Co. F also captured the orderlyship again today, Private Enwood being selected to fill the position of attendant on the colonel.
